NEW YORK, Nov. 18.—The shrinkage in the volume of business at the stock ex-change, which was so marked yesterday, made further progress today, and the re-turning dullness indicating that no ma-terial demand for stocks existed, induced more selling by the bears. The tone of the market was weaker than it has been since

market was weaker than it has been since Saturday morning, resulting in many marked losses for the day.

The bears were more aggressive than usual on a market of the caliber displayed today, and there was a renewal of the old tactice—spreading reports reflecting upon the financial standing of prominent firms in the street being the favorite. The mon-erary situation, was one of the mort infinetary situation was one of the most influ ential factors, however, in restricting buy-ing, and while money was much easier during the latter portion of the day, its character in the forenoon told severely

It was reported that many banks today took out clearing house certificates, and the criticisms of those banks and lenders who were industriously calling loans yes-terday, was most severe. The relief came too late to have any material influence upon the market. The foreign situation offered little consolation this morning,

NEW YORK, Nov. 18 -P. W. Gallaudet New York, Nov. 18.—P. W. Gallaudet & Co., brokers, suspended today. The firm is composed of P. W. Gallaudet and Henry W. Dortch. To a reporter Mr. Minor, the assignee, said: "The suspension of the house is due to the general depreciation of the house is due to the general depreciation of the value of their collaterals, which has gone so far that when loans to the firm were called they could not be met, although the firm have what in ordinary times would be amply sufficient resources for forrowing money. From a cursory examination of the firm's books, it appears to me that their liabilities will emount to about \$900,000. They hold such good securities that if the market improves they will be able to pay all this injebtedness and have a handsome surplus nebtedness and have a handsome surplus left. A full statement of liabilities and assets will not be ready for several days." LOAN CEUTIFICATES.

The chairman of the loan committee of the clearing house stated today that four million loan certificates had been taken by the banks today, and he expected a larger issue tomorrow. A movement is on foot to have the bank presidents offer to take from the accretary of the treasury Blo.000,000 to small coin, on condition that ie buys 4 per cent, bonds to that amount, and if the bank presidents succeed in this proposal, they will take the balance of the small coin held in the treasury.

THE INDIAN SCARE.

Troops Ordered Out to Check the Threatened Sionx Outbreak.

BISMANCE, N. D., Nov. 18—A dispatch from Mandam says that the citizens held a greeting last night and organized for protection against the Sioux Indians. A telegram was sent to Governor Miller asking for arms and ammunition, and he has given instructions to the adjutant general to use his discretion. A dispatch was also received from the sheriff of Morton county, stating that the government could not, or would not protect the settlers in this part of the country against the depretations, which the Indians of Standing Rock Agency are committing, and calling on the government for troops.

"During my inquiries I found that there was nothing having the appearance of a war, or indicative of war in this Messiahic belief. OMAHA, Neb., Nov. 18.—Troops from Fort Omaha, Fort Robinson, Fort Nio-brara. Neb., and a pack train from Fort Russell, Wyo., have been ordered out to hold the Indians in check at the Pine Ridge and and Rosebud agencies on the Dakota frontier. They will be in motion before night. efore night.

OMAHA, Neb., Nov. 18.—Telegrams poured into the army and into the newspaper offices today with bulletins about the Indian scare. At the army offices they were made light of and it was asserted that the Indians were only out on a bunt. It was stated that two reliable Brula Indians now in the city had stated

Private advices from Valentine give a different origin than the Messiah craze to the Indian uneasiness. Since August the Indians of Rosebud have been restless, claiming that the agent was not giving them a square deal on supplies. A few days ago three families living ten miles northwest of Valentine moved away simultaneously. Their neighbors sought to convince them that there was no danger, but they had heard the complaints about the agent and they were bound to go, and they went.

"Tonight there are 200 Indians in the town armed, but the citizens are armed, too, and patrols will be put out and people will sleep with their clothes on. The date will be fixed by a committee of citizens, and Indian arents will be notified that and Indian agents will be notified that after that date any Indian found in the county without a pass from the agent will be killed on sight. The population is thoroughly aroused, and conservative men are doing their bost to quiet the angre-populace. There is every reason to believe that unless the government takes imme-diate steps to increase the force of soldiers here and at Fort Lincoln, every Indian coming into the country will be killed.

GENERAL MILES. CHICAGO, Nov. 18 .- Referring to the Associated Press dispatch to night, regard-ing the movements of large bodies of troops in the department of the Platte. and their concentration at points adjacent to the Pine Ridge agency, Gen Miles said; "The newspapers really ought not to publish that sort of news, for it will be in the Indian camps in less than twenty-four hours, taken there by rinners. There is really bothing in this, except that the troops are sent to the vicinity of the res-ervation to prevent, if possible, any depre-dations, and to encourage the loyal element among the Indians, if any, and also to protect the agencies, which report the Indians as turbulent and past control.

"It was hoped that this excitement LA BLANG

They are getting their rations now, and possibly the difficulty may be bridged over."

AT JAMESTOWN, Jamestown, N. D., Nov. 18.—It is learned here tonight that the Messiah craze has struck the Indians at Pt. Lincoln and they struck the Indians at Ft. Lincoln and they are inclined to be ugly, and residents at the fort object to the departure of the troops for the west. It is reported that 100 armed bucks were seen crossing the railroad track at Minnewauker and were enroute to the Turtle mountains to join the Sioux at Standing Rock, but said they were going hunting.

There was a gain of \$15,000,000 in that of silver, and a contraction of \$25,000,000 in the volume of the belief that Mandan is threatenes with park posts, resulting in a pet increase of the belief that Mandan is threatenes with an armed force. The Indians located near-est Maudan are about thirty-five miles away on the Cannon Ball river. They are thrifty, industrious and peaceable people, who have taken up claims, built houses and huts, own cattle, ponies and wagons, and are in good circumstances. They are Christianized Indians, having no faith in superstitions, and disliking this Messiah craze for they say that it interfers, with craze; for they say that it interferes with the progress of the people. And with this in view, and the hope of opening the way to necessary legislation, I return herewith house bill No. 49, with the following suggestions and recommendations:

"First—That the date of its passage by the house, as certified by its chief clerk, be corrected; for while no cause for trouble or litigation may ensue, it does not seem proper for the executive to be called upon to approve a bill which is certified to have passed three or four days after it has been presented to him.

A contention arose over the question of whether the manufacturer should be charged a tax or not. The bill provided for £1,000 per year.

Mr. Brown, of Logan, proposed a substitute, fixing it at two dollars.

Mr. Brown, of Oklahorna, said the change would not benefit the farmer, as it was intended; that it did not increase the price of grain, and that in Des Moines, where the largest distillery in the world was shut up by problishion, the price of grain did not go down a cent.

Mr. Brown, of Logan, said if the evil of intemperance was going to exist, that we might as well have the benefit of it.
